VISITA ALLA SACRA DI SAN MICHELE

The symbolic monument of the Piedmont Region.

The Abbey of the **Sacra di San Michele**, a symbolic monument of the Piedmont Region, is one of the must-see stops on a vacation or out-of-town trip to the Susa Valley. It is located at the mouth of the Susa Valley just 40 km from Turin and tells over a thousand years of history. It is a symbolic place of two great paths: **the Via Francigena** and **the Micaelico Way**.

It is a sign of recognition for anyone arriving in the valley. Even from a distance its silhouette catches the eye, both during the day and illuminated in the evening!

You can get there easily by car or by shuttle, active this year first until November 1 from the Avigliana train station, and there are other ways by which you can get first up. By bike, by walking and by taking the via ferrata! The method we most recommend if you like walking and have a day to spare is a walking trip.

📍 *Via alla Sacra, 14 — Sant'Ambrogio di Torino*

Francigena bicycle route from Caselette to Avigliana

The Ciclovía Francigena develops in the wide plain of Caselette and Almese surrounded by cultivated fields and large grassland areas at the foot of Mount Musinè. Nearby it is possible to visit, with detours in the urban area, the archaeological excavations of the Roman villas, or the Cays Castle and the Ricetto di San Mauro. Continue along the Dora until you reach the dam and metal bridge near Avigliana. From here it is possible to reach the historic center on an urban route and resume the Ciclovía towards the Avigliana Lakes.

The gofri

These are crispy wafers on the outside and soft on the inside made with water, flour and yeast, baked in special cast-iron griddles.

In small mountain hamlets where it was more difficult to reach the bread oven, gofri were prepared once a week to be alternated with bread.

Today, topped with cold cuts, cheeses, honey, jams and spreads, they are a real delicacy to be enjoyed on festive occasions and at village fairs.

Stars and Ruins

Stars and ruins. They are those of the New Monastery standing on the top of Mount Pirchiriano: stones, pillars, walls and arches, what remains of a grandiose five-story building part of the Sacra di San Michele complex.
